

On March 5 BCI President Laurie Ostrow had the opportunity to represent BCI at the presentation of the Fly V Australia Professional Cycling Team. The invitation-

only reception was held at the Montage hotel in Beverly Hills and was hosted by Vaustralia Airlines and the Honorable Peter Beattie, Queensland Australia's Trade Commissioner and former governor. Look out for this up and coming team which has aspirations of becoming Australia's first pro tour team and competing in the Tour de France in the next few years. They hope to get there by doing well racing in North American including this May's Amgen Tour of California.
