

Ride in Peace

In Memory of Dr. Michael Mammone

ORANGE COUNTY | MARCH 18TH

The cycling community has rallied in an effort to honor the life and contribution of Dr. Michael Mammone.

With support from Providence Mission Hospital Foundation a celebration of life and ride has been organized on Saturday March 18th, 2023 at the Leonard Cancer Institute at Mission Hospital 27799 Medical Center Road Mission Viejo.

All cycling groups small and large are encouraged to ride *to the event*. We ask that your ride does not “start” or “end” at the hospital but instead “STOP” at the event no later than 11:00 A.M. Groups should plan their own independent rides and converge at the event.

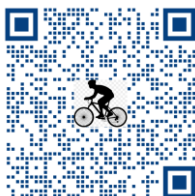

Armbands (optional/free) to be worn on the ride may be picked up at Rock n Road Cyclery, at all 4 Orange County locations and Specialized of Costa Mesa, any time prior to the day of the event and worn on your group rides that day.

For those individuals and families wishing to attend without riding to the event, free parking will be provided on the first three levels with the rooftop level reserved for standing room only attendance.

Special thanks to Providence Mission Hospital Foundation, Rock ‘n Road Cyclery,

O.C. Fire Authority, O.C. Sheriff, South Orange County Spokesman, and the city of Mission Viejo.
